Hold Everything Magnet

Strong enough that they can hold up to a 3/16" thick pad of note paper and a handful of paper clips! These ceramic magnets have such a wow factor that they get used for years and keep your logo visible. Hold maps, drawings, pictures, notes, and other important items on white boards, filing cabinets, fridges and other ferrous metal surfaces. Great trade show giveaway, leave-behind, or conversation starter for use in home, school, office, industry and oil & gas companies
